Mr. Allen borrowed \$1,500 to \$2,000 for three days in March from former Alderman Charles Witt of East Boston. He also torrowed similar amounts from the East Boston Co-operative Bank at the same period. This has led to the belief that a sum aggregating about \$4,000 was needed to cover up irregularities in accounts and satisfy the auditor of the Preachers' Ald Society. It is believed, also that if this was the case, the treasurer must have taken a large sum of money with him when he left this city a week ago and must have the securities of the society as well. This view, it is said, is confirmed by the statement or President Wood of the Columbia Trust Company that Mr. Allen last year deposited \$52,000 in cash at one time with the trust company in his own name.

"There has been a good deal of gossip about the State chairmanship. John Swanger of Milan is boosting Charley Morris of Trenton. I don't know what will come of it. Tom Mayo of Clitton Hill is also favorably mentioned. Tom is a good fellow. There is also Ben Russell of Steelville. He is a good man. But as I said before, this summer weather is too warm to worry about the chairmanship at this stage of the same." OTHERS LEAD NORTONI.

Up to the present time there has been much difficulty in getting teams for this purpose. In addition, the electors of Marion County at the last general election decided that the trails in present use were good enough; therefore voted down the road tax, three-fourths of which had been paid by non-weigidents.

Maybe he does not wish a re-election—probably he does not, but if he does I am his friend.

"Over in Kansas City we are trying our best to get together. There is a good deal of talk about running Walter S. Dickey for Mayor on the Republican ticket. We have got to have a business man, and he stands high with the community. A good many of us would be more than willing to support him for Mayor even though we might not want him for State chairman, as some have suggested. He has been too close to Kerens for that job. The mayoralty is a different proposition. If the Republican factions ever get together in Kansas City—and there is no reason why we should not under present conditions—we will carry the city.

this summer weather is too warm to worry about the chairmanship at this stage of the game."

"What about Bert Nortoni and the Republican nomination for Governor?"

"Oh, Bert is a good fellow, has done his duty here in St. Louis and is willing to get all the advertising which may come his way. I don't believe that he thinks he could be nominated. John H. Bothwell of Sedalia and Cyrus P. Walbridge of St. Louis seem to be in the lead as gubernatorial possibilities, but then that is merely speculation. Still, Bert might make a rush for the nomination and he might get it—and again he might not. It's too hot to figure on such things."

Mr. Roberts departed for Kansas City last night. There has been fluch gossip among Republicans about candidates for different positions. The possibility that Folk may be nominated by the Democrats has made a number of the leaders think of the advisability of leaving the governor-ship blank and fight for minor places on the ticket. However, the leaders insist that if Folk is nominated the Butlers.

snip blank and fight for minor places on the ticket. However, the leaders insist that if Folk is nominated the Butler element can be depended upon in St. Louis to knife the ticket in the Twelfth Congressional District and that there might be a possibility of winning in such a contingency. Last fall a combination of the Butlers, Phelps, Kerens and Meriwether forces was attempted and frustrated by the better element in the party. The experiment might be repeated, but it is hardly probable.
